NCFE LEVEL 2 UNDERSTANDING CODING

Aged 19+ at the beginning
of the academic year

Lived in the EU
for 3 years

Available
fully funded

Coding is what makes it possible for anyone to create computer software. Websites, apps, and social media are all made with code - it is a language that tells computers what action to perform. This qualification is designed for anyone who is looking to gain an introduction to coding. As the world is evolving digitally and the digital sector is growing, this course will give you an insight into the principles of coding, and how coding is used in practice for software development.

Benefits

- Achieve a nationally recognised Level 2 qualification
- Further your personal and professional development
- Learn at a time that suits you without the need to attend college

What you will learn

- Understand the principles of coding
- Understand terminology used in coding
- Understand coding design principles
- Understand the processes and practise of coding
- Understand the importance of communication and project management in coding
